About SC Comms & Utilities

Overview

SC Comms & Utilities has forged an outstanding reputation and proven record of providing specialist advice and implementation of utility infrastructure since 2002.

We are able to handle requirements for individual customer driven projects, through to management and execution of large scale projects for principal stakeholders.

At SC Comms & Utilities, we are a dedicated, hands on management team who are multi-skilled and able to adapt and overcome any unforeseen challenges.

The SC Comms & Utilities name is synonymous with integrity, experience, expert advice and the ability to deliver jobs on time and on budget.

Communications

Communications is where we started and it is our core service. This is our strength and our expertise. Let us help make your job easier.

Utilities

SC Comms & Utilities offers a complete end to end solution. We take ownership of the problem and with proven processes, find the best solution for you.

National Coverage

In 22 years we have grown to offer services in every state and territory in Australia – except for WA, and we are going there next! Each state manager takes a ‘hands on’ approach to managing your project.

About Us

Our Leadership

Starting in Telstra in 1999, Andrew held various roles and learned all aspects of the national network, finishing in 2010 with the position of Project Specialist, Asset Relocation/Commercial Works. This role covered an extensive array of network integrity issues and included responsibility for the RMS commercial works in NSW.

In 2011, Andrew began working with Sydney Civil Communications – a Sydney Metro based contractor. His role was to manage WHS, Operations and Projects. Andrew's desire to grow the business, improve the systems and expand the services ultimately lead to him purchasing the business in 2014.

Since 2014, Andrew has developed and expanded SC Comms & Utilities to now operate in every State and Territory in Australia except for WA – and they are next on his list! Andrew is very proud of the business, team and clients. We believe in service and take a personal approach to working with our clients to assist them in solving problems.

Andrew Smith
Director

Sustainability

We are committed to supporting sustainable development and infrastructure by implementing proactive solutions and stringent environmental controls that achieve positive outcomes.

It is a major focus at SC Comms & Utilities to ensure that all legislative and statutory requirements are met and complied with, and internally we have an ongoing commitment to environmental sustainability which drives our business process improvements.

Investing in our Communities

We actively collaborate with local Indigenous individuals, businesses, organisations, and communities to enhance their involvement in any SC Comms & Utilities projects.

Accreditations

ISO Accreditation

In 2018 SC Comms & Utilities made the commitment for continual improvement by obtaining; ISO9001 (Quality Management), ISO14001 (Environmental Management) and ISO45001 (OH&S Management System). This accreditation was recertified again in 2021 and 2024.

SC Comms & Utilities senior management recognises that leading and operating an organisation successfully requires managing it in a systematic and visible manner. We understand that business success results from implementing and maintaining a management system that is designed to not only identify and maintain our environment, but also to continually improve the effectiveness and efficiency of the organisation's processes and overall performance.

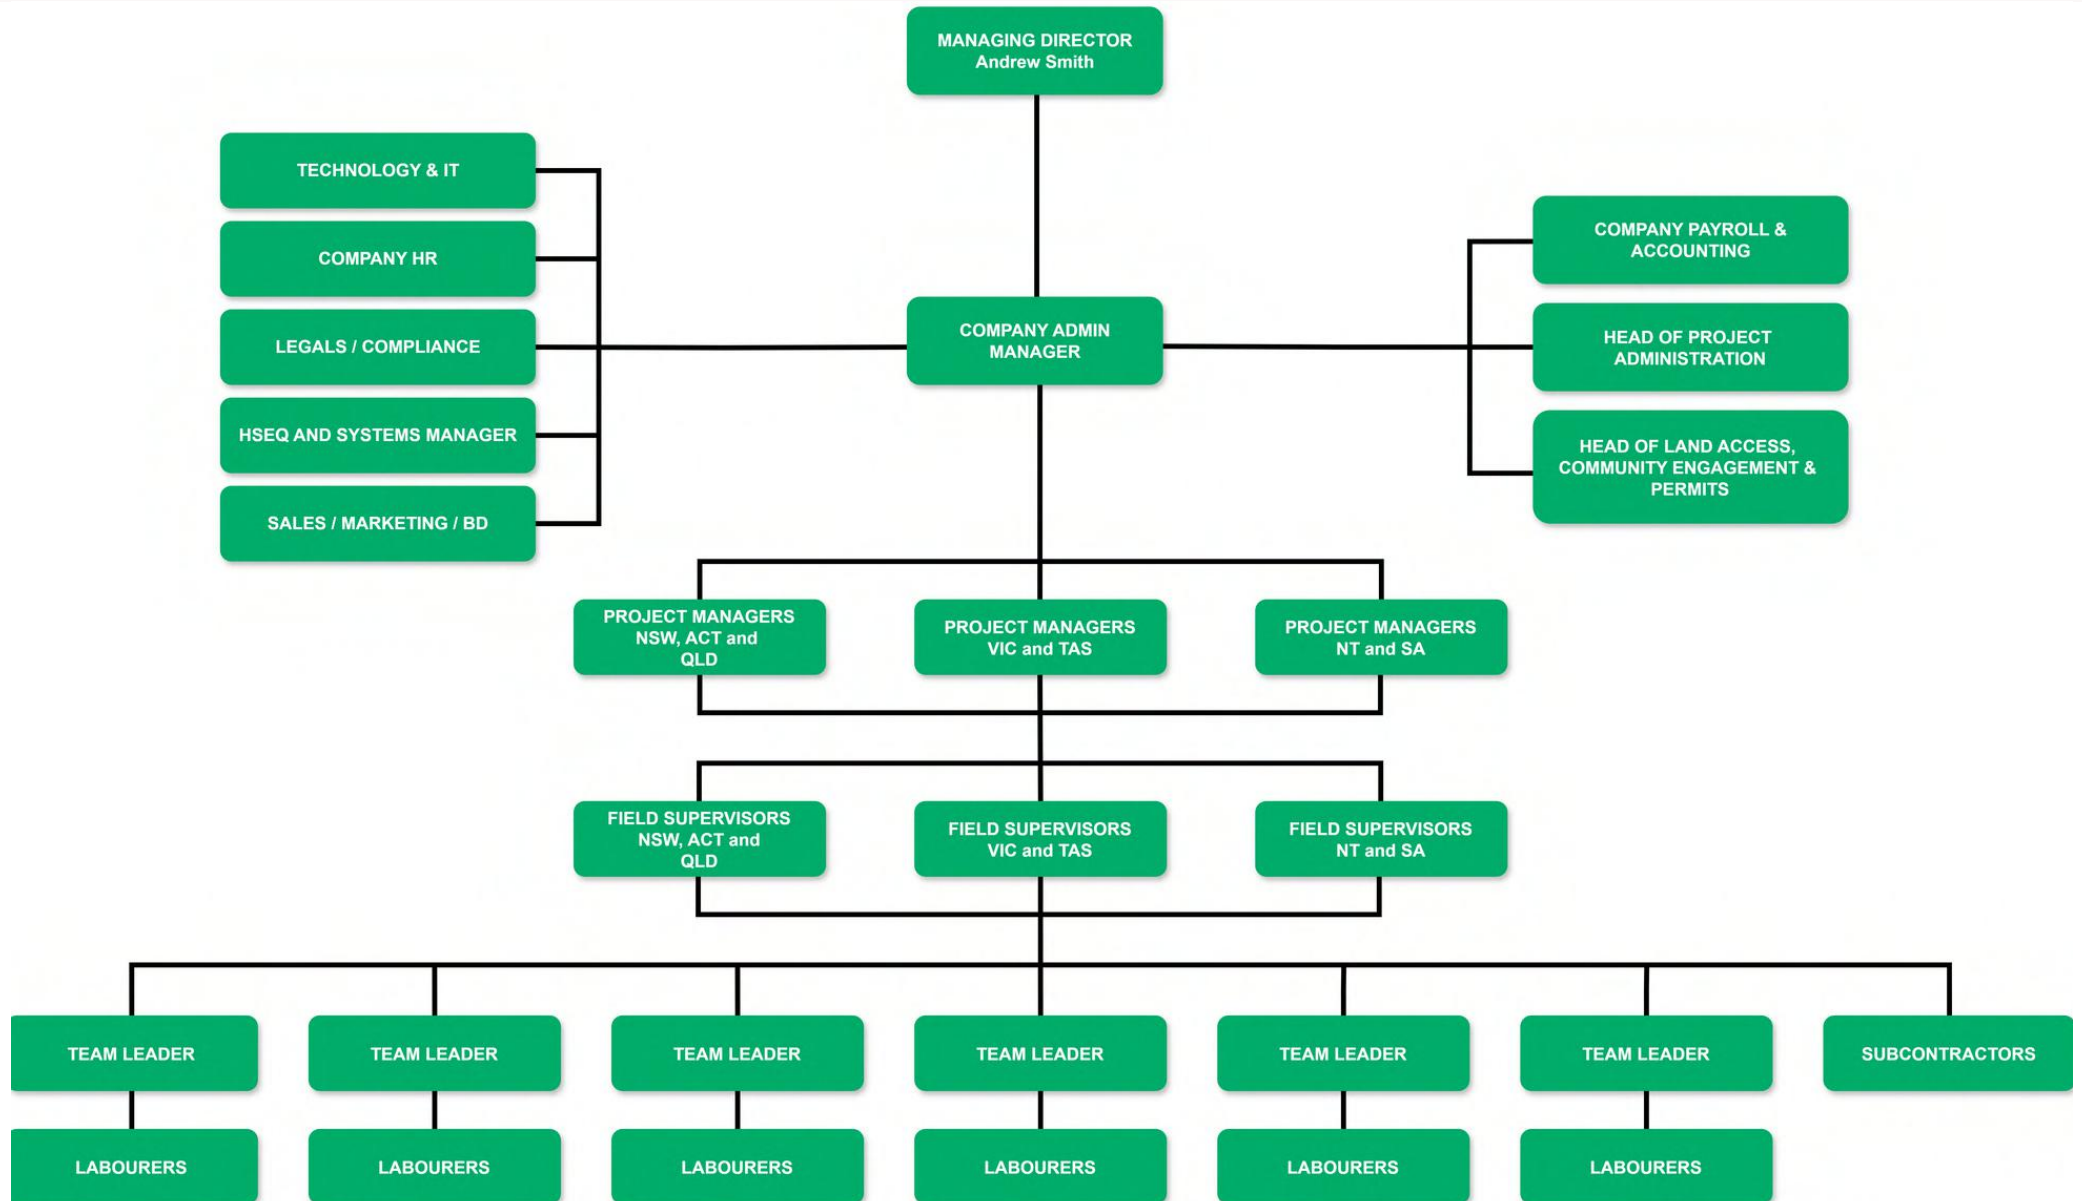

Our Cyber Security

Our company is committed to maintaining a high level of cyber security.

We follow recommended mitigation strategies, from ISO 27001, NIST (National Institute of Standards & Technology) and the Australia Cyber Security Centre (ACSC) Essential Eight (Maturity Level 2), to ensure the protection of our customers' data and sensitive information.

Our Organisation

Dedicated **Professionals**

Numbers don't lie. While they don't mean everything in our line of work, they can be good to give you some context around who we are and what we offer you.

The SC Comms & Utilities Way

Self Performance

SC Comms & Utilities have the in-house resources and the capabilities to deliver all aspects of your project. We offer a full service range of capabilities along with technology based project management and delivery. Our self performance project delivery model provides:

- Quality assurance
- Industry best practice safety systems and procedures
- Cost effective approach
- Efficiency and time management
- In-depth reporting and project management

Stakeholders & Community Relations

SC Comms & Utilities work on projects in urban areas, where community interaction is critical. Our experienced team prioritises stakeholder engagement and collaborate closely with local communities to minimise disruptions to residents and surrounding businesses.

Through proactive solutions and strict environmental controls, we ensure positive outcomes in project delivery.

We Deliver

SC Comms & Utilities consistently delivers on our promise to provide reliable utilities and communications infrastructure. Our commitment to high-quality workmanship builds lasting client relationships.

Our focus is on adding value. There are plenty of companies that do construction, but at SC Comms & Utilities we proactively look for ways to add value to your project. We aim to:

- Take a collaborative approach
- Reduce duplication
- Provide progressive and practical solutions
- Always work towards continual improvements

Working with Partners

At SC Comms & Utilities we thrive on collaboration. Our commitment to delivering exceptional utilities and communications projects extends beyond our capabilities. We actively seek partnerships with industry experts, subcontractors, and suppliers to create synergies that drive success. Here is how we work together:

- Open Collaboration – we welcome partnerships at every stage of a project. From planning to execution, we value diverse perspectives and expertise.
- Quality Focus – our partners share our dedication to excellence. Together, we ensure that every aspect of the project meets the highest standards.
- Efficiency – by working closely with partners, we streamline processes, optimise resources and deliver projects on time and within budget.
- Innovation – Collaborating with forward thinking partners allows us to explore new technologies, sustainable practices and creative solutions.

SC Comms & Utilities is open to finding a better approach and we hope you are to.

We can be better together.

Clients and Compliances

SECURE LOCAL JOBS CODE

Our Reputation

Our Commitment

SC Comms & Utilities is committed to providing the best possible service to our clients at competitive prices, while maintaining the highest ethical standards.

We will never compromise on the health, safety or well-being of our people, clients and stakeholders and have implemented a strict adherence to industry best practice WHS regulations.

Our future is clear

To be recognised and respected as the preferred supplier for utilities infrastructure solutions across Australia.

To be an employer of choice and a company that our clients, our suppliers and our team members are proud to say they work with.
